

# Report on the quality of beneficial ownership data

02.12.2019

Although Ukraine is the first country in the world to disclose information on companies' beneficial owners, due to numerous technical flaws of the register and weak legislative framework, the data on beneficial owners is of very poor quality. See the full report on the quality of beneficial ownership data prepared by AntAC [https://project.liga.net/projects/beneficiar/index\\_en.html](https://project.liga.net/projects/beneficiar/index_en.html)
