

“To be or not to be...” - E-declarations for anticorruption activists

20.09.2017

On September 20 the Anticorruption Committee recommended that Yuliya Tymoshenko's bill No6271 is adopted by the Parliament in full.

This bill abolishes e-declarations for anticorruption activists and doesn't introduce any additional reportings. Both President's bills on e-declarations for activists and tax reporting for the NGOs were not considered.

We call on the Rada to adopt bill No6271 promptly and then work to improve President's bill on tax reporting. However, BPP MP Burbak announced their faction's stance that both bills should go in one package.
